

**We provide design and manufacturing solutions for your press tooling and metal parts stamping**

- Custom-made solutions
- Stamping simulation
- Design
- Tooling manufacturing
- Tooling tuning
- Maintenance
- Pre-series
- Mass Production

ISO 9001 STANDARD,  
2015 version

### PRESS TOOLING DESIGN AND MANUFACTURING

Progressive, rework and transfer tooling

### MANUFACTURING, STAMPING AND CUTTING IN SMALL AND LARGE SERIES

### STAMPING AND CUTTING

Turnover: 3,6 M€

■ Design office (CAD-CAM)

■ 28 skilled employees:

**Design:** 5 designers

**Tooling / Manufacturing / Maintenance:** 20 technicians

**Quality:** 1 quality control manager

**Administration:** 2 assistants

■ 2,400 m<sup>2</sup> workshop

■ Machinery:

- 160T gooseneck press, with a 2T feed line
- Radaelli 350T bridge press / a 2,700x1,600 mm table with 5T feed line
- Benelli 800T bridge press / a 4,000x2,000 mm table with 10T feed line + electronic transfer
- **High performing workshop:** numerical-control machining centres / wire and die-sinking EDM machines
- **Metrology:** ZEISS 3D equipment / 2D optic control / Roughometer / Qualification minutes

Located in Meslay-du-Maine, France  
Near the A81 motorway (VAIGES exit)
